### WANTS TO ENLIST SOLDIERS IN LINCOLN

## Judge Davison Ready to Organize Militia Company and Farris Gets Busy in Boyle, Also.

Word comes that Shelton Saufley, of Stanford, Representative from Lincoln county in the Legislature, will announce for the nomination for Congress this week. He will run against Congress of the Eighth district. Saufley has been campaigning in the western part of the Eighth district. Saufley made a good legislator and he had previously made good as a newspaper man. He is editor of the Stanford Interior Journal one of the hest-paying papers in the state, but has a lot of work to do which may account for his desire to invade Congress. He was formerly managing editor of the Lexington Democrat during its brief existence.

Lexington Leader.

With war impending against Mexico, and a call for 250,000 volunteers to go to the front expected from the president, talk is being heard of raising a company of militia or volunteers in Stanford and Lincoln county. Dr. R. L. Davison has gotten into communication with United States Senators Ollie M. James and W. O. Bradley offering his services to raise a company in this section, and it is not believed that he will have any trouble in getting the required number of men. Lincoln county's young men are as game and as patriotic as any in the world, and Dr. Davison believes the world, and Dr. Davison believes that he can recruit a company here that can whip their weight in Mexicans, wild cats or any other sort of opponem they may be called upon to He wants the Lincoln county among the first on the firing line when Hustonville, Ky., April 21: the call comes and will lead them to any kind of a fight that may be brew-

## **LOCAL LADS AT LONDON** While Stanford's Pitcher Holds Mountaineers Hitless and Game is Won

Two victories without a defeat so far this season for the Stanford High School base ball team! The nine, coaches and a number of fans went to London Saturday to play a return game

By Score of 15 to 0

and came back with the grapes by a score of 15 to 0, due mainly the mas-terly pitching of Lephew, who held the tast mountaineers without a hit during the nine rounds of play. The big teature of the game was the triple play pulled off by the Stanford lads in the seventh inning in which Grimes, Mob-ley and Perkins took part. It was great work and a play that is almost the rarest to be seen in baseball.

This was the second game between London and Stanford. The first was

Stanford's battery did the most substantial work for them, Laphew allowing no hits and Wood, in addition to making a sensational catch on a foul fly, was able to neld his pitcher at all times and made the circuit of the bases three times. The batting of Joe T, Embry and Sam Embry was of its usual high order, and each of these scored three times. The work of Grimes in right field could be placed on the stellar role and Per-kin's handling of two differents fouls put him on the same list. The lone star for London was its twirler, In adlition to getting eight strikeouts he came rearer getting a hit through any other of the London batters, Especial credit is due to Profs, Caywood and McNutt for the consideration that they showed the Stanford squad.
